Volkswagen Crafter

Temperature Controlled Panel Van

Built in conjunction with

Volkswagen Crafter

Temperature Controlled Panel Van

Commercial
Vehicles

A light-weight temperature-controlled conversion built by Volkswagen Commercial Vehicles Integrated Partner, Coolkit Ltd.

Conversion includes

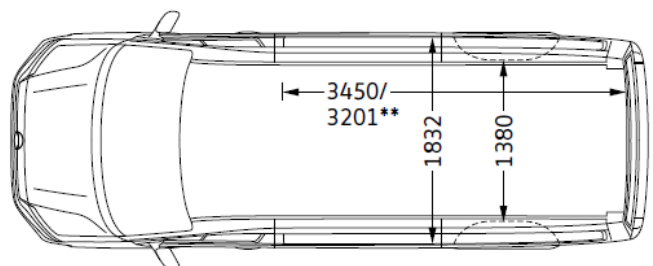

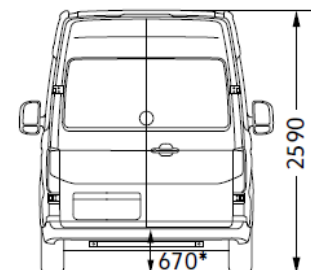

- Full Electric Thermo King fridge.
- 75mm insulation throughout to help the load space maintain temperatures down to minus 20° Celsius .
- Folding, adjustable and removable mid bulkhead for separate rear chilled section.
- External side slab door for better thermal efficiency.
- Single phase overnight standby in recessed socket to allow overnight temperature control.
- PVC Strip Curtains to minimise air transfer.
- Aluminium strips for easy load and pallet protection.
